DETAILED ACTION

Acknowledgment is made of the receipt of the response filed on 10/29/03. Claims 20-39 are currently pending.

Drawings

1. The drawings are objected to because in step 14 of figure 3, "DISTORSION" must be substituted with --DISTORTION--. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
2. Formal drawings, including corrections, must be submitted.

Allowable Subject Matter

3. Claims 20-39 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach, or fairly suggest either alone or in combination thereof, a method of correcting distortion of a deformed image derived from reading an optical code, generating a grid of the deformed image to identify a plurality of characteristic points in the deformed image, each of the characteristic points corresponding to one of the notable points; and generating on the grid an undistorted image by means of a geometrical transformation correlating the characteristic points and the notable points. In contrast, the Seto reference does not disclose an optical code.

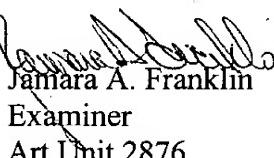

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
